KONG®

2024/2025 PRODUCT CATALOG

Our Story

The year was 1976 and Joe Markham was a loving but puzzled pet parent to Fritz, a German Shepherd whose favorite hobby was chewing on rocks.

One day, while working on a VW Bus, Joe began tossing auto parts to Fritz to lure him away from the rocks. Among those parts was a rubber suspension component and when it bounced over to Fritz, he was immediately drawn to it, picked it up and dropped it in Joe's lap. Inspired by the erratic bounce and toughness of that rubber part, Joe created the KONG. And nearly 50 years later, KONG Classic is still a favorite toy for dogs.

Based in Golden, CO, all KONG Rubber and KONG Consumables are proudly made in the USA.

»o 10014 - Lg

HOW AND WHY WE STUFF

Stuffing is a fun way to provide enrichment for your dog and extend engagement with a toy. For beginner chewers, try stuffing a KONG toy loosely with dry kibble or small treats. If you have a more advanced chewer, you can increase the challenge by stuffing more firmly with different sized treats, pastes or peanut butter, wet food, and chews. For the ultimate challenge and to extend playtime, try freezing the stuffed KONG.

EXTREME GOODIE BONE®

Entertains and satisfies power chewers
Stuff with treats, pastes or peanut butter

CATS

KITTY KONG®

Unpredictable bounce
Use with KONG Stuff'N for Cats, kibble or treats

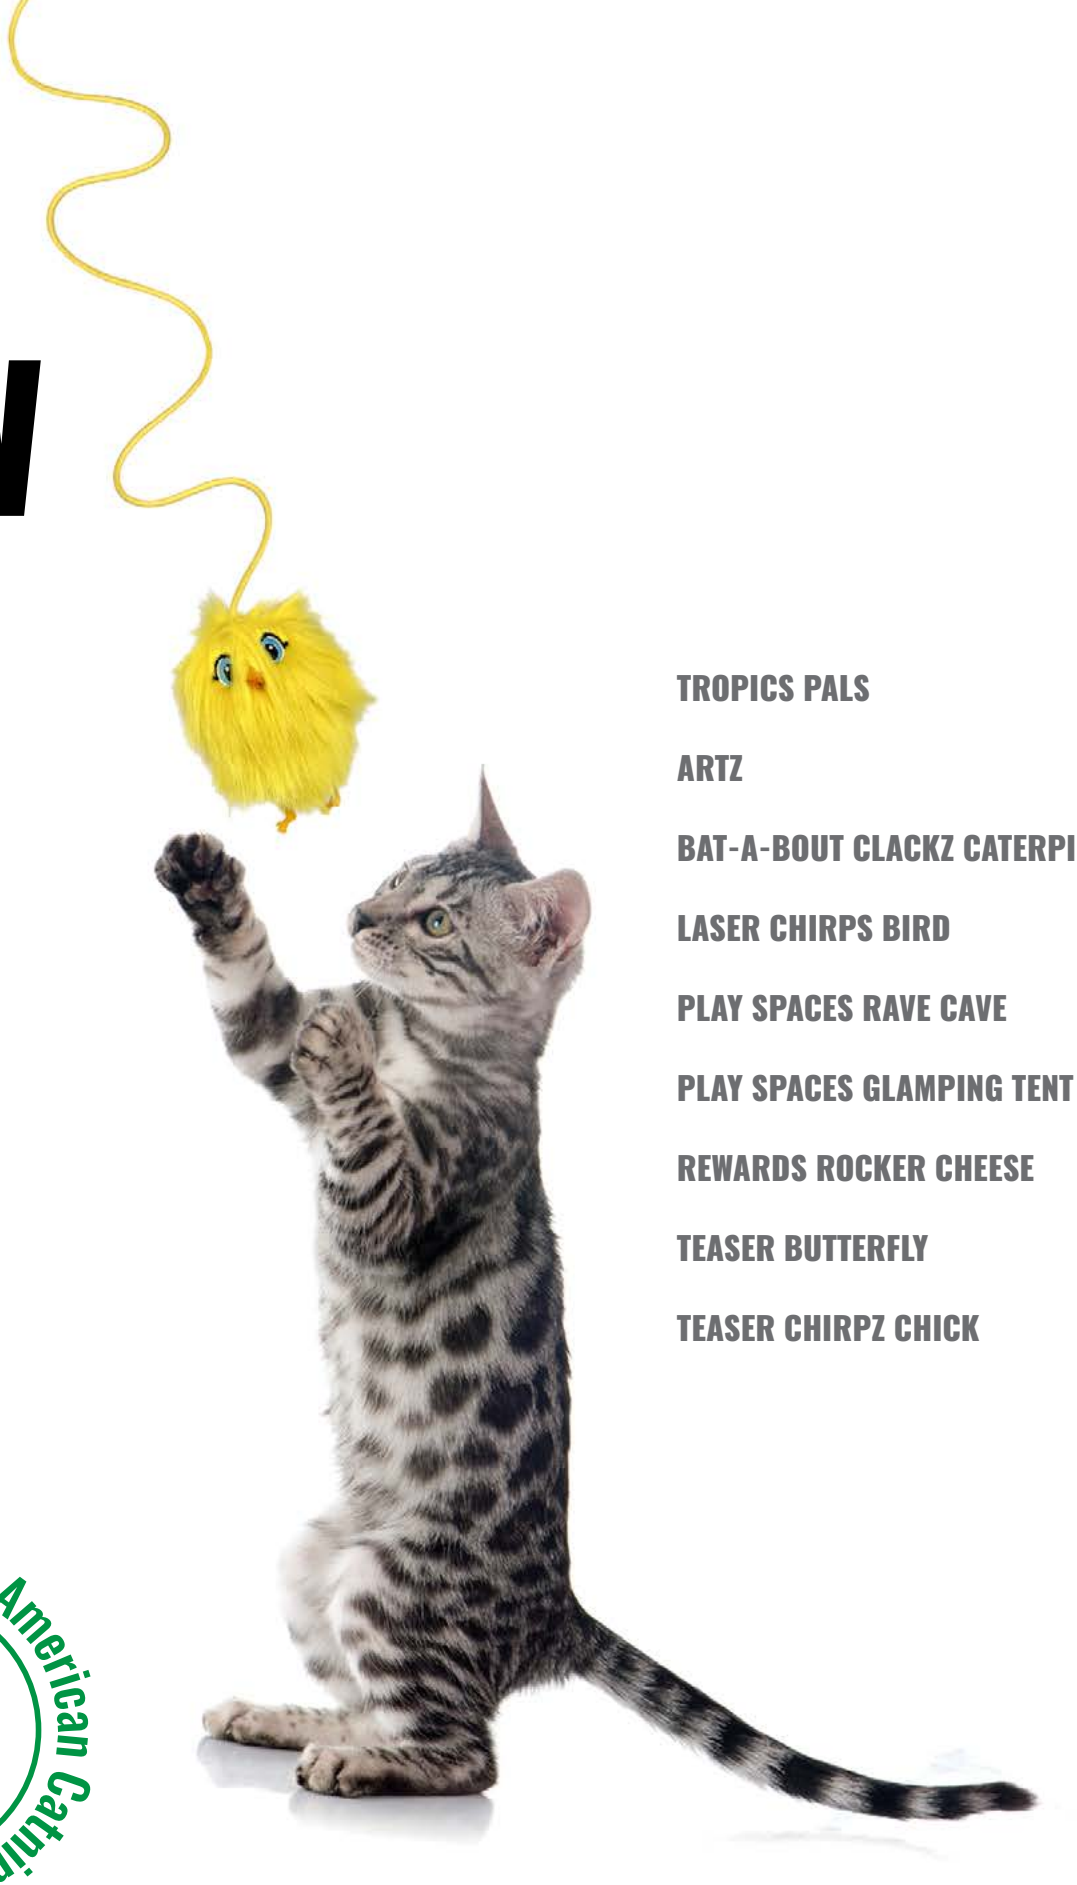

KITTY KONG
»0 C4

At KONG, we know a lot about dogs, but we know just as much about cats too. For decades, we've studied their behavior, decoded their play styles and we know that when they're not sleeping (up to 16 hours per day!), they need the exercise that energetic play provides. Fulfilling their natural instincts like stalking, hunting, and pouncing creates fun-filled bonding moments and satisfies their innate behaviors. And when they need solo time, we have toys for that, too.

For product details see page 79.
